25X1

Dear

25X1

I am sorry that I wasn't able to spend more time with you during your visit last week.

I hope that you were able to obtain the information you needed from our meteorologists. The enclosed charts were given to me by to send to you. *Re:*

25X1

Keith has been continuing work on Task "Hotel" and has completed the operations and manufacturing handbook for the bin system. The operations handbook has been completed for the knife system and the manufacturing handbook almost completed. All that is left is the calibration manuals which will be about the same for the two systems.

I would appreciate your informing Ollie of this status.

It appears that we will be able to resume work on task "B" within about 2 weeks. When we start I will let you know the schedule for the next test.

Hope that you will visit us again soon and I certainly expect that I can spend more time with you.

Very truly yours,

25X1
